

A COST EFFECTIVE ELEVATOR FOR LOW-RISE RESIDENTIAL BUILDINGS

KONE EcoSpace

# Reliable, residential elevator solution

#### Cost effective and reliable

The KONE EcoSpace<sup>™</sup> is a highly cost-effective elevator solution designed specifically for low-rise residential buildings.

Easy to maintain and incorporating durable components, materials, and accessories, the KONE EcoSpace is the ideal choice for residential buildings where excellent reliability is a priority.

There are eight attractive car designs to choose from, with a standard range of material options available for the floor, ceiling, and walls.

Equipped with compact gearless KONE EcoDisc<sup>®</sup> motor the EcoSpace elevator doesn't need machine room which saves space and reduces costs.

#### **Eco-efficient**

The highly efficient KONE EcoDisc<sup>®</sup> motor is 50–70% more energy-efficient than conventional traction 2-speed or hydraulic hoisting technology, and requires no oil or hole drilling. This proven technology is offered as standard with the KONE EcoSpace.

In addition to the industry-leading efficiency delivered by the KONE EcoDisc, the KONE EcoSpace can be further enhanced with a range of other innovative solutions designed to cut energy consumption throughout the lifespan of your equipment.

- Eco-efficient regenerative drive Our regenerative drive recycles energy for immediate reuse within the building and cuts consumption by up to 20 %.
- Long-lasting LED lighting As well as being 80 % more efficient than halogen lighting, LED lighting also lasts 10 times longer.
- Innovative standby solutions
  Standby solutions

Standby solutions power down the equipment – such as lights door operator, fans, and signalization – when it is not in use, providing substantial energy savings.

#### Your trusted partner

KONE is with you every step of the way – from planning and design through installation and maintenance to modernization – for the entire life cycle of your building. Our industryleading solutions are supported by comprehensive prehandover quality testing and post-sales services. With over 100 years of experience in the elevator business, KONE is your trusted partner dedicated to ensuring smooth People Flow<sup>®</sup>.

KEY FACTS						
Max. no. of stops	14					
Max. travel (m)	35					
Speed (m/s)	0.63, 1.0					
Load (kg)	320, 400, 450, 480, 630, 1000 (fixed car sizes)					
Car type	Single and dual opening (through type car)					
Control type	Push button, down collective					
Door type	Side opening					
Energy saving features	Standby, power regeneration, LED lights

KONE provides innovative and eco-efficient solutions for elevators, escalators and automatic building doors. We support our customers every step of the way; from design, manufacturing and installation to maintenance and modernization. KONE is a global leader in helping our customers manage the smooth flow of people and goods throughout their buildings.

Our commitment to customers is present in all KONE solutions. This makes us a reliable partner throughout the life cycle of the building. We challenge the conventional wisdom of the industry. We are fast, flexible, and we have a well-deserved reputation as a technology leader, with such innovations as KONE MonoSpace<sup>®</sup> KONE MaxiSpace<sup>®</sup>, and KONE InnoTrack<sup>®</sup>. You can experience these innovations in architectural landmarks such as Capital City in Moscow, Hongqiao Transport Hub in Shanghai, North LaSalle in Chicago and Tour First in Paris.

KONE employs on average 35,000 dedicated experts to serve you globally and locally in over 50 countries.
